

# How to Add the E2B Badge

*Thanks for helping us spread the word — we appreciate you showcasing your participation in the **E2B for Startups** and **E2B for Research Programs**.*

## Badge for your website or project page

1. Choose a preferred one of the visual badges (PNG or SVG) in the drive folder for [Startups](#) or [Research](#), depending on your program.
2. Download the badge and upload it to your website or project page.
3. Link the badge image to <https://e2b.dev/startups> or <https://e2b.dev/research>

## Badge for your GitHub repository

To show your participation in the **E2B for Startups and Research Program**, please add the following Markdown snippet to your project's **README .md** file:

### E2B for Startups

```

```

### E2B for Research

```

```

### Steps:

1. Open your GitHub repository.
2. Locate and open the **README .md** file.
3. Paste the badge snippet near the top or where it fits best in your project intro.
4. Commit the changes.

This helps acknowledge your participation and promotes E2B's support for innovation.
